### **About The Apawamis Club:**

Apawamis' story demonstrates the richness of the club's enduring legacy and the origin from which the founding of the Club was inspired dating back to the year 1890.

The origins of squash at Apawamis are historically significant as it can be said that Apawamis played a prominent role in the development of the game, then known as "squash tennis." It was in 1904 that the first squash house at Apawamis, comprising of two courts was built. It is believed that this was only the third such facility in the country built on club grounds after Tuxedo and the New York Racquet Club. Several years later, with the popularity of this new sport on firm footing, the courts were moved to the area of our current location. Although there have been many renovations and conversions of court size, Apawamis has kept pace with the times and proudly boasts one of the finest squash programs in the country.

The Club's support of the renowned athletic programs and the ongoing upgrades and renovations to the clubhouse and athletic facilities demonstrates the Apawamis membership's appreciation of the club, for its history and traditions.
